### Subpart B—Procedures

EDITORIAL NOTE: The procedures set forth in this subpart were formerly carried as §§ 609.100 through 609.500 of this title and were transferred to part 97 as §§ 97.11 through 97.19, respectively, but are not carried in the Code of Federal Regulations. For Federal Register citations affecting these procedures, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

#### § 97.10 General.

This subpart prescribes standard instrument approach procedures other than those based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). Standard instrument approach procedures adopted by the FAA and described on FAA Form 3139 are incorporated into this part and made a part hereof as provided in 5 U.S.C. 552(a)(1) and pursuant to 1 CFR part 20. The incorporated standard instrument approach procedures are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20590. Copies of SIAPs adopted in a particular FAA Region are also available for examination at the headquarters of that region. Moreover, cop-

ies of SIAPs originating in a particular Flight Inspection District Office are available for examination at that office. Based on the information contained on FAA Form 3139, standard instrument approach procedures are portrayed on charts prepared for the use of pilots by the U.S. Coast and Geodetic Survey and other publishers of aeronautical charts.

#### § 97.20 General.

(a) This subpart prescribes standard instrument procedures based on the criteria contained in FAA Order 8260.3B, "U.S. Standard for Terminal Instrument Procedures (TERPS)" (July 7, 1976) and FAA Order 8260.19C, "Flight Procedures and Airspace" (September 16, 1993). These standard instrument procedures and FAA Orders were approved for incorporation by reference by the Director of the Federal Register pursuant to 5 U.S.C. 552(a) and 1 CFR part 51. They may be examined at the following locations:

(1) FAA Orders 8260.3 and 8260.19 may be examined at the Federal Aviation Administration, Flight Standards Service, Flight Technologies and Procedures Division (AFS-420), 6500 S. MacArthur Blvd., Oklahoma City, OK, and at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC. These Orders are available for purchase from the U.S. Government Printing Office, 710 N. Capitol Street, NW., Washington, DC 20401.

(2) Standard instrument procedures may be examined at the Federal Aviation Administration, National Flight Data Center (ATA-110), 800 Independence Avenue, SW., Washington, DC,

## **14 CFR Ch. I (1–1–04 Edition)**

and at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(b) Standard instrument procedures and associated supporting data are documented on specific forms under FAA Order 8260.19C (September 16, 1993) and are promulgated by the FAA through the National Flight Data Center (NFDC) as the source for aeronautical charts and avionics databases. These procedures are then portrayed on aeronautical charts and included in avionics databases prepared by the National Aeronautical Charting Office (AVN-500) and other publishers of aeronautical data for use by pilots using the NFDC source data. The terminal aeronautical charts published by the U.S. Government were approved for incorporation by reference by the Director of the Federal Register pursuant to 5 U.S.C. 552(a) and 1 CFR part 51. They may be examined at the Federal Aviation Administration, National Flight Data Center (ATA-110), 800 Independence Avenue, SW., Washington, DC, and at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC. These charts are available for purchase from the FAA National Aeronautical Charting Office, Distribution Division AVN-530, 6303 Ivy Lane, Suite 400, Greenbelt, MD 20770.
